Sir:

This communication is responsive to the Non-Final Office Action dated May 31, 2005, concerning the above-referenced patent application.

REMARKS

Applicants respectfully request reconsideration of the present application in view of the reasons that follow.

Election/Restriction Requirement

Applicants affirm election of Group I and, as the species, 3-[(2-oxotetrahydro-2H-thiopyran-3-yl)methyl]benzoic acid (*see* compound 1, Table I, page 25), for examination on the merits. Applicants reserve the right to file one or more divisional application(s) to pursue the non-elected subject matter, and to rejoin method claims commensurate in scope with allowed product claims.
